

Special Issue

Sustainable Economic Growth and Development for Environmental Sustainability

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue of *Sustainability*, entitled “Sustainable Economic Growth and Development for Environmental Sustainability”, which aims to address the challenging topic of economic growth and development in the context of environmental sustainability. As an action plan for the planet, people, and prosperity, the 2030 Agenda for Sustainable Development and its Sustainable Development Goals (SDGs) have been implemented throughout the world since their adoption by the United Nations member states in 2015. Based on economic growth, social inclusion, and environmental protection, sustainable development requires the attainment of its three key dimensions—economic, social, and environmental—in a comprehensive and integrated manner. This is why economic growth and development that lack environmental sustainability are neither efficient nor effective over a long period of time.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
