

## Special Issue

# IEIE Buildings (Integration of Energy and Indoor Environment)

### Message from the Guest Editors

Reacting to the recent UN reports on the need for accelerated action on reducing the effect of buildings on the climate change, Journal of Sustainability gave professors Kalamees (TalTech, Estonia) and Bomberg (Clarkson U, NY, USA) a privilege to collect papers for development a special issues on retrofit (renovation, rehabilitation, environmental upgrade of existing buildings of any type, shape and character including historic buildings) with the focus on Integration of Energy and Indoor Environment in Buildings. Today, an architect looking for a technology blueprint may find 138 research projects on Horizon 2020 or 150 papers published by each of the leading publishers like Elsevier or MDPI and another 100 on Building Automation in IEEE, Springer or Informa. With the overflow of publications we need to give a reader a focus on new developments in a holistic, multi-disciplinary approach to methods for new and retrofitting construction.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
