

Special Issue

Advancements and Innovation in Tourism Management and Strategic Management: Sustainable Development Perspective

Message from the Guest Editors

The Special Issue will concentrate on recent achievements and innovations in tourism management and strategic management from the perspective of environmentally friendly development. It connects theoretical insights with practical applications by demonstrating advanced research, new methodology, and multidisciplinary strategies. Essential subjects will encompass sustainable tourism methodologies, strategic frameworks for resilience and adjustment, technological advancements, and their incorporation into sustainable development goals (SDGs). This Special Issue will examine the convergence between tourism and strategic management, emphasizing sustainability as a central theme. This Special Issue will cover the following: strategic management methodologies, innovations in technology, policy, and governance, and the main tools for measuring sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
