

Special Issue

Intelligent Mobility: Technologies, Applications and Services

Message from the Guest Editors

The main objective of this Special Issue is to present contemporary R & D achievements in urban mobility known as intelligent mobility. Modern urban traffic problems can no longer be solved solely by old approaches expanding various transport capacities. This approach only leads to more traffic induced by greater demands. The intelligent mobility approach addresses the problem of urban transport using information and communication technologies, via novel knowledge on how to plan and control such complex systems and processes and new business models in the transport of passengers and goods. The leading principles of intelligent mobility are: efficiency, safety, human friendliness, flexibility, sustainability, integration, and clean technologies. In that sense, intelligent mobility is one of the main avenues of the smart city concept.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
