

Special Issue

Sustainable Innovation on Operation Management of Supply Chain and Logistics

Message from the Guest Editors

This Special Issue seeks to collect research on the influences of such developments on sustainable innovation regarding operations in supply chain and logistics management practices that encompass inventory management, vehicle routing problems, supplier selection, process improvements, supply chain coordination, management decisions and influence mechanisms.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

The impact of IT development on sustainable supply chain and logistics;
Mathematical models for sustainable supply chain management;
Advances in sustainable supply chain and logistics;
Digitalization in sustainable supply chain management and logistics;
Sustainable supply chain design, optimization and data-driven modeling;
Artificial intelligence in sustainable supply chain management ;
Designing and coordinating operations in sustainable supply chains.
We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
