

Special Issue

Digital Transformation and Innovation for a Sustainable Future

Message from the Guest Editors

The proliferation of digitization has given rise to a myriad of products, services, and business model innovations, fundamentally transforming how firms pursue sustainability. As these innovations continue to permeate all facets of the business landscape, urgent research is required to delve into the driving factors behind digitalization-induced innovation and its consequent impact on sustainability. This Special Issue aims to enhance the academic understanding of the interconnections among digitization, innovation, and sustainability. Potential contributions may include:

- Digitalization as a strategic action;
- Sustainable growth through digitalization;
- Digitalization-driven product and service innovation;
- Sustainable business models in the digital era;
- Digital-enabled innovation management for sustainability;
- Digital innovation processes and sustainable practices;
- Digital transformation and sustainable value creation;
- Leveraging digitalization for sustainable competitive advantage;
- Environmental and social impact of digitalization;
- Integrating sustainability into digitalization strategies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
