Special Issue

Urban Green Space and Sustainable Forest Management

Message from the Guest Editors

The main scope of this Special Issue is to combine the topic of urban green spaces (UGSs)-urban parks and gardens, woodlots, etc.—with the specifics of the sustainable management of municipal forests. Historically, the principle of sustainability indicates that a forest's production should be managed to a specific limit in order to prevent as much undesirable damage as possible to the residual stand and overall ecosystem. and the detailed regulations are determined based on the concepts of guiding principles. The New EU Forest Strategy for 2030 aims to "set a vision and concrete actions to improve the quantity and quality of EU forests and strengthen their protection, restoration and resilience". The Strategy places forest demands in the context of changing environmental conditions due to climate change and meeting socio-economic needs. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
