

Special Issue

Evaluating the Impact of Smart Systems on the Sustainability of Businesses and Supply Chains

Message from the Guest Editors

We would welcome submissions for publication in the following areas:

- Reviews of current attitudes, cultures and societal and sustainability impacts around smart systems
- Reviews that focus on the impact of smart systems on business sustainability
- Evaluation of projects with industry, focusing on addressing user needs and societal sustainability
- Redesigning/reconfiguring business processes and supply chains for sustainable smart systems implementation
- Knowledge management and competency development around the development of innovation and co-creation to create sustainable businesses
- Societal and cultural change—managing the disruptive impact of digital technologies and its impact on environmental sustainability
- Integrate technological and societal aspects of smart systems research, ensuring technologies are developed with people in mind to improve the adoption and acceptance of new ways of working

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
