

Special Issue

Individual and Collective Factors in Achieving Sustainable Development Goals

Message from the Guest Editors

The purpose of this Special Issue is to identify individual psychological or behavioral aspects and collective, social, cultural or group factors which should be investigated to improve the knowledge on how to achieve the Sustainable Development Goals. This Special Issue aims to present scientific contributions addressing recent empirical and theoretical analysis of the role of individual aspects (e.g., values, motivations, regulatory foci, behaviors) and/or collective factors (e.g., action, orientation, culture, group identity) in the achievement of sustainable development goals. Therefore, all types of papers are welcome: conceptual, narrative reviews, systematic reviews, intervention evaluations, qualitative and quantitative studies, and correlational and experimental research. The goal is to attract studies that address such issues, both from a general perspective and in relation to specific domains. Prof. Dr. Fridanna Maricchiolo

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
