Sustainable Innovation in Tourism and Hospitality

Message from the Collection Editors

Innovation is becoming increasingly important in tourism and hospitality, both following and dictating trends such as globalization, digitization and sustainability. Firstly, we would like to present state-of-the-art scientific analyses, both empirical and theoretical, of sustainable innovation responses to current and future trends and threats.

Secondly, at the same time, we wish to devote as much attention as possible to studies focusing on innovation in the tourism and hospitality sector that address the sustainability aspects of all areas, and not just those which are ecological. More precisely, with our first objective, we are interested in the changing patterns of global trends and their impacts on sustainable innovation in the tourism and hospitality sector, including the pre-/mid-/post-Covid-19 influences on sustainable innovation behavior, approaches, dynamics and outcomes of all or selected stakeholders in the tourism and hospitality sector. For our second objective, we encourage authors to consider innovative approaches to integrating social sustainability, beyond the economic and environmental dimensions, within the overall performance of tourism organizations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
