

Special Issue

Insurtech, PropTech & Fintech Environment: Sustainability, Global Trends and Opportunities

Message from the Guest Editors

This Special Issue focuses on the InsurTech, PropTech, and FinTech environments. It is well known that “FinTech” comes from the union of two words, “Finance” and “Technology”, “InsurTech” is the union of the words “Insurance” and “Technology”, and PropTech it is a use of technology in the real estate industry to make transactions more efficient. This sector is probably one of the most relevant new markets in recent years, with a great potential to generate collaborations with financial institutions, the insurance world, and jointly grow towards a more innovative business model. Papers submitted to this Special Issue should cover some of those topics from a wide range of views and fields such as financial, technological, digital, management, international business, and quantitative analysis, including sustainable business. Those contributions are not limited to academics, but also practitioners are very welcome.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
