Special Issue

Integrated Learning Innovations

Message from the Guest Editors

In the educational area, we have seen the need to create spaces where there are no limits on time or capacity; that is how education uses various platforms for the teaching–learning process. At the level of higher education, especially in the fields of Computer Engineering and Education, academia shows significant enthusiasm for the development of various skills related to technological competencies. This fact leads to the need to adapt the use of complementary tools as cloud tools, a body of knowledge for correct Integrated Learning Innovations.

This Special Issue will outline the key issues and barriers involved with engaging technology directly in teaching and learning processes, with use of the Body of Knowledge and cloud computing providing interesting examples. We seek contributions presenting, analyzing, and evaluating sustainable, innovative, and scalable pedagogical practices using smart technology. We welcome both empirical and theoretical contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
