

Special Issue

Sustainable Integration of Renewable Power Generation Systems

Message from the Guest Editors

The Special Issue focuses on the Sustainable Integration of Renewable Power Generation Systems, to gather knowledge on innovation, research, and demonstration activities and results in energy conservation, conversion, renewable technology penetration and improved energy efficiency, in order to be an overall framework for scientists, researchers, policy and decision makers. They may include different territorial scales (country, city, district, single building unit), cross-cutting technologies, energy-related products and services, the identification of parties and roles (producers, users, aggregators, etc.), as well as energy, environmental, social and economic impacts of sustainable integration strategies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
