

Special Issue

Integration of Solar PV in Buildings

Message from the Guest Editor

The integration of solar photovoltaic (PV) technology in buildings, known as building-integrated photovoltaics (BIPV), is demonstrating a huge potential in the decarbonization of buildings, new and retrofit, by improving the energy-savings of their envelopes and by increasing the local generation of renewable energy. The areas of interest of this Special Issue include approaches such as innovative technical solutions that successfully combine architectonic designs with electric functions, BIPV case studies and lessons learned, BIPV performance monitoring and prediction modeling, energy and economic assessment of BIPV, cost reduction and market strategies, life cycle analysis, socio-environmental studies, modeling and digitalization, pre-normative proposals for guaranteeing the functionality and reliability of BIPV products and systems, optimized self-consumption designs, energy management and storage, and BIPV potential studies.

Guest Editor

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
