

Special Issue

The Future of Interior Lighting is here

Message from the Guest Editors

In recent years zero energy buildings received increased attention though proper legislative pressure and this can potentially sideline the human factor from the epicenter of the build environment. It is therefore of urge importance the new and often contradictory lighting trends to be examined and this is exactly the scope of this special issue. Case studies of exceptional lighting projects are welcome. Submitted manuscripts should address one or more of the following topics:

- Architectural lighting & daylighting
- Decision systems for optimized lighting
- Human Centric Lighting (Case studies of exceptional lighting projects are welcome)
- Innovative lighting control (Photosensors, CCD sensors, occupancy sensors, etc)
- Innovative luminaires (dynamic lighting, dimming, IoT, LiFi, etc)
- Light pollution and impact on the human health
- Lighting Design and Sustainability
- Near and Net Zero Energy Buildings
- Retrofitting Strategies, Measurement and Verification
- Social Impact and wellbeing (Ergonomics, Productivity, etc)
- Visual impairment and corresponding lighting needs

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
