Intermodal Transportation and Sustainable Mobility

Message from the Guest Editor

Transportation contributes to economic efficiency and social progress, but is also responsible for negative environmental impacts. Therefore, it is under pressure to reduce its environmental footprint and fossil fuel energy consumption. To face the challenge of sustainability and demand increase, intermodal transport has attracted wide interest in the scientific and political community. Intermodal transport pertains to both passenger and freight systems. The topics of interest include, but are not restricted to:

- Sustainability of transport systems and policies;
- Integration of new technology or vehicle;
- Network design and planning;
- Service network design;
- Vehicle routing, scheduling, and dispatching;
- Innovative multimodal mobility services (public transport, vehicle sharing, etc.);
- Multimodal real time traveler information;
- Innovative transport systems for urban areas and urban freight transport;
- Integrated planning of people and freight transportation systems.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
