Special Issue

IoT and Sustainability

Message from the Guest Editor

This Special Issue's goal is to gather novel contributions from researchers and engineers from academics and industry in the domain of IoT and sustainability, including the smart grid. Authors can propose promising research manuscripts based on analytic tools, simulations, and prototypes relating to the following topics.

- Energy storage systems
- · Electric vehicle charging
- Energy harvesting
- Power generation uncertainty
- Internet of Things
- 5G
- Demand response
- Lighting system
- · Climate crisis.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
