

Special Issue

Agricultural Engineering for Sustainable Development

Message from the Guest Editors

The aim of this Special Issue is to create a forum for experts, professionals, and readers interested in topics related to agricultural engineering, energy, automation, robotics, information technology, artificial intelligence in agriculture, and its sustainable development. This Special Issue welcomes original research articles and reviews and research areas may include, but are not limited to:

- Agricultural machinery, vehicle control and navigation, and route optimization;
- Information technology, artificial intelligence, information security for planning, and the forecasting and management of agricultural production;
- The use of machine learning and neural networks for pattern recognition in agronomy and animal husbandry;
- The automation and robotization of agriculture, sensors, IoT, unmanned vehicles, and UAVs;
- Energy efficient agriculture and renewable energy;
- Agricultural economics and management for sustainable agricultural development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
