

## Special Issue

# Sustainable Entrepreneurship and Innovation Strategic Management

### Message from the Guest Editor

The rapid increase in the role of applied research in recent time requires a significant level of theoretical knowledge and practical skill. This Special Issue aims to identify the main determinants of change and to analyze the key trends in the current level of development in society from the standpoint of sustainable entrepreneurship and innovation strategic management. In particular, we focus on the identification of modern technological trends, under the influence of which the business and professional environments are significantly changing. The actualization of digitalization has also led to a change in the paradigm of modern entrepreneurship and management. New analytical topics arise, such as monitoring trends in the development of society, assessing state policy, the impact of investments, and innovations on the sustainable use of the natural resource potential of territories, the ecological and social capacity of the economy, etc.

### Guest Editor

Prof. Dr. Vitalina Babenko

1. Mathematical Modeling and Data Analysis Department, V. N. Karazin Kharkiv National University, Kharkiv, Ukraine
2. Department of Law, Management & Economics, Daugavpils University, Daugavpils, Latvia

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
