Special Issue

Optimising Supply Chains and Manufacturing for Sustainable Business Management and Macroeconomic Development

Message from the Guest Editors

Join our Special Issue in *Sustainability* to explore innovative strategies for optimizing supply chains and manufacturing processes, promoting sustainable business management, and fostering macroeconomic development. This issue focuses on integrating sustainability into supply chains to enhance efficiency, reduce environmental impacts, and support long-term economic growth. We welcome submissions of research papers, case studies, and reviews from diverse disciplines, including operations management, industrial engineering, economics, and business. Contribute to advancing sustainable practices in a globalized economy.

We welcome submission on topics including but not limited to:

- sustainable manufacturing
- supply chain optimization
- green supply chain management
- circular economy
- macroeconomic development
- lean manufacturing
- supply chain resilience
- digital supply chain transformation
- carbon footprint in supply chains
- resource efficiency

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
