

Special Issue

Recent Advances in Environmental Economics Toward Sustainability

Message from the Guest Editors

The accelerating integration of artificial intelligence (AI), circular economy principles, and sustainability imperatives is challenging traditional performance assessment models. Historically rooted in linear, efficiency-driven metrics, performance evaluation must now grapple with a new landscape where long-term impact, systemic interdependence, ethical considerations, and regenerative value creation are central. We are pleased to invite you to contribute to this Special Issue, which aims to explore how AI technologies, circularity thinking, and evolving cultural paradigms converge to redefine performance and environmental economics for sustainability in the public, private, and civil sectors. We especially welcome work addressing the growing role of AI and digitalization in shaping how performance in environmental economics is monitored and judged.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
