

Special Issue

Sustainable Smart Manufacturing and Enterprise Digital Transformation

Message from the Guest Editors

Smart manufacturing systems have become the main way to enhance enterprise intelligence, greenness, and sustainability. We invite scholars and enterprises from all walks of life to share their interests and successful cases here. Examples include the application of AI in smart manufacturing, innovation of smart manufacturing models, intelligence of smart manufacturing business, sustainable development of enterprise, and the construction route of smart manufacturing, etc. Original research articles and reviews papers are welcome in this Special Issue. Research areas may include (but are not limited to) the following:

- Sustainable smart manufacturing;
- Enterprise digital transformation
- Smart/green/sustainable manufacturing systems
- Smart/green/sustainable supply chain
- Smart production system design;
- Industrial artificial intelligence
- Industrial intelligence networking
- Service-oriented manufacturing
- Self-adaptive scheduling
- Smart lean operation
- Productive services
- Manufacturing service outsourcing
- Sustainable value added
- Sustainable development

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
