

Special Issue

Energy Transition, Energy Economics, and Environmental Sustainability

Message from the Guest Editors

Sustainability is pleased to announce a new Special Issue entitled “Energy Transition, Energy Economics, and Environmental Sustainability”. The world is currently witnessing a process of energy transition, which can be defined as a change from energy matrices based on fossil fuels to renewable energy sources. This transition is made possible both by technological evolution and the development of public policies and market instruments. As the energy transition increases the complexity of system management, technical–economic feasibility analysis becomes increasingly intricate, requiring innovative and interdisciplinary methodologies. This transition is also inherently linked to environmental sustainability, as it seeks to ensure the preservation of natural resources and reduce environmental damage. This Special Issue will deal with the energy transition, energy economics, and environmental sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
