

Special Issue

Reverse Logistics—Creating a Sustainable Supply Chain

Message from the Guest Editors

We would like to invite you to submit your research paper on the topic “Reverse Logistics—Creating Sustainable Supply Chain”. This Topic seeks high-quality works focusing on the following topics:

- Reverse logistics;
- Creating a sustainable supply chain;
- Sustainable development;
- Industrial assembly technologies;
- Logistics systems design for industrial applications;
- Paradigms of modern manufacturing system designs;
- Flexible and focused manufacturing systems;
- Reconfigurable manufacturing systems and other manufacturing concepts of the future;
- Advanced industrial engineering;
- Manufacturing system capacity balancing.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
