Energy Efficiency: The Key to Sustainable Development

Message from the Guest Editors

It is our pleasure to announce a new Special Issue of Sustainability entitled “Energy Efficiency: The Key to Sustainable Development”. Growing energy demand, global warming, and shortage of fossil fuels are real problems for Sustainable Development that require urgent solutions. This Special Issue has a wide scope and covers a broad range of Energy Efficiency to provide Sustainable Development-related topics. Research areas may include (but not limited to) the following:

- Sustainable designing and operation
- Energy management
- Polygeneration
- Energy conversion
- Sustainable refrigeration, air conditioning, heat pumps, and heat exchangers;
- Renewable energy
- Combined power plant
- Alternative fuels and working fluids
