

## Special Issue

# Blue Carbon Ecosystems and Ecological Response to Climate Change

### Message from the Guest Editor

This Special Issue examines the impacts of climate change on blue carbon ecosystems, and contributions that merge academic fields are strongly encouraged, including the science and policy associated with ecosystem changes in response to climate change. Studies on the development of blue carbon projects to combat CO<sub>2</sub> emissions and the effects of climate change are strongly encouraged. Manuscripts published through this Special Issue will be integral in improving and strengthening existing governmental and non-governmental blue carbon frameworks for protecting and restoring blue carbon ecosystems worldwide.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
