

Special Issue

Blue Carbon Ecosystems and Ecological Response to Climate Change

Message from the Guest Editor

This Special Issue examines the impacts of climate change on blue carbon ecosystems, and contributions that merge academic fields are strongly encouraged, including the science and policy associated with ecosystem changes in response to climate change. Studies on the development of blue carbon projects to combat CO₂ emissions and the effects of climate change are strongly encouraged. Manuscripts published through this Special Issue will be integral in improving and strengthening existing governmental and non-governmental blue carbon frameworks for protecting and restoring blue carbon ecosystems worldwide.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
