

Special Issue

Sustainable Digital Transformation and Corporate Practices

Message from the Guest Editor

The theme of this Special Issue is “Sustainable Digital Transformation and Corporate Practices”, with the aim being to develop research on the digital transformation and provide firms with knowledge on its implications in order to sustainably improve their value. Specifically, this Special Issue seeks to publish theoretical and empirical research that extends our understanding of the impact of the digital transformation on corporate practices, and of its underlying mechanisms.

The scope of this Special Issue encompasses, but is not limited to:

- New measurements of the digital transformation and data assets;
- The digital transformation and company practices;
- ESG practices against the backdrop of the digital transformation;
- The relationship between the digital transformation and the value of firms in different situations (e.g., life cycles, industries, countries, legal systems, and so forth);
- The digital transformation and green innovation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
