

Special Issue

Innovative Strategies for Power System Control: Optimizing Renewable Energy Integration for Enhanced Energy Sustainability

Message from the Guest Editors

In order to achieve energy sustainability, the integration of renewable energy sources is vital; however, their variability and intermittency present significant challenges. This Special Issue aims to address all aspects of science and technology related to innovative strategies for power system control and the optimization of renewable energy integration.

Guest Editors

Dr. Adelino J. C. Pereira

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
