

Special Issue

Knowledge Transfer for Sustainable Development

Message from the Guest Editors

In this Sustainability Special Issue, we welcome papers from a wide range of epistemological, conceptual, and methodological backgrounds in order to shed light on KT in the context of sustainable development, filling the gap in the literature. Thus, we encourage papers that examine this phenomenon from a multidisciplinary approach, employ different methodologies (e.g., qualitative, quantitative) at both micro- or macrolevels of analysis, and offer interesting theoretical and empirical findings that address, but are not restricted to, the following domains of inquiry:

- The relationship between KT models and firm's sustainability;
- Integrating Industry 4.0 to achieve sustainable development at macro- or microlevels of analysis;
- Social capital and KT in a context of sustainability;
- Human resources in developing socially and environmentally responsible KT practices;
- Universities as sources of KT for sustainable development;
- Challenges and opportunities behind AI, robotics and the digital technologies for KT on sustainable development;

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
