

# Special Issue

## Sustainability in Construction Materials

### Message from the Guest Editors

This Special Issue aims to collect innovative research findings involving advances in sustainable construction materials and their characterization, less energy consuming production processes of construction materials, different waste streams valorization in the production of building products, methodologies of minimizing the environmental impact in the building sector, efficient methods of recycling and reusing in the construction, as well as innovative technologies for improving the performance and service life of the construction materials. We look forward to receiving your contributions.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
