

Special Issue

Strategies for Disasters: From Engineering Works to Mitigation and Adaptation Plans

Message from the Guest Editor

The Special Issue invites contributions presenting (a) management/governance strategies for natural disasters (at various spatial-temporal scales); (b) disaster experiences owing to lack of pre-disaster or flawed strategies; (c) theoretical/empirical works correlating specific hazards, socio-political, technological, cultural contexts and scales with the respectively appropriate strategies. Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Forecast models for extreme events as background for crisis/disaster strategies;
- Emergency planning based on warning systems;
- Sectoral plans/programs for emergency operations;
- Civil Protection operating structures;
- Technology-based strategies for disaster risk mitigation;
- Successes and failures of flood-resistant works;
- Successes and failures of anti-seismic building design;
- Strategies for reduction of social, economic, institutional vulnerability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
