

Special Issue

Environmental, Social, and Governance (ESG) Management for Sustainability in the Hospitality, Tourism, and Meeting Industries

Message from the Guest Editors

For some time, tourism and related industries have often been cited as important sectors to consider when pursuing sustainable development goals (SDGs), and progress has been made accordingly. Yet, it is rather a common understanding that additional efforts in ESG management are warranted, as well as taking a more proactive approach (Liu et al., 2022) in the near future. In this regard, studies have recently highlighted the role of research in assisting ESG practices and management strategies in the tourism (Back, 2024), hospitality (Legendre et al., 2024), and meeting (Hieker et al., 2024) industries. To this end, this collection will showcase papers (research papers, structured reviews, syntheses, and case studies) that can extend theories regarding various aspects of ESG practices and management in these industries. Studies on various sub-sectors of the industries are welcome; there will be an emphasis on significant implications for the academic and/or practitioner audience.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
