

Special Issue

Circular Economy and Sustainability: Integrating Technology and Management Solutions

Message from the Guest Editors

This pioneering Special Issue is being announced in the midst of an unprecedented time. With growing environmental and economic pressures and calls for the wellbeing of future generations, countries and corporations alike are dependent on natural and cultural resources to form their economic vitality, locally and globally. Hence, management research is now evolving to focus on how sustainable development, when properly managed, will provide an incentive to attract customers, investors, and other key stakeholders. This Special Issue is dedicated to promoting interdisciplinary research at the intersection of circular economy principles and sustainability practices, with an emphasis on technological and managerial innovations. This Special Issue aims to do the following:

- Explore innovative approaches for implementing a circular economy.
- Highlight the role of digital technologies in advancing sustainable practices.
- Provide a platform for interdisciplinary research that connects technology, management, and sustainability.
- Showcase practical solutions that organizations can adopt to enhance circularity.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
