

Special Issue

Sustainable Cultural Tourism: Balancing Preservation, Development and Visitor Experience—2nd Edition

Message from the Guest Editors

Considering the outstanding importance of the development goals of the United Nations' 2030 Agenda for Sustainable Development, the present Special Issue aims to address the understanding and impact of cultural tourism in sustainable territorial development. It also intends to gather research that points out the relevance of governance policies in promoting sustainable cultural tourism as a local economic resource. This Special Issue covers theoretical and empirical research; however, contributions presenting case studies and policy implementation are also welcome. The result will be an up-to-date source on the following themes:

- Sustainable tourism development and the UN's Sustainable Development Goals.
- Best practices for cultural tourism sustainability.
- Sustainable event tourism.
- Sustainable urban tourism.
- Sustainable tourism planning and regional development.
- Consumer behaviour.
- Carrying capacity.
- Visitor experience and visitor management.
- Overtourism/undertourism.
- Community development and sustainable cultural tourism.
- Sustainable cultural tourism and climate change scenarios.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
