

## Special Issue

# Emergence of Resource and Capability of Logistics Service Providers (LSPs) under Dynamic and Uncertain Environments

### Message from the Guest Editor

This Special Issue will offer scholars, logistics providers, and logisticians a new business model and a deeper understanding of certain facets of a successful business future. First, it will provide insider knowledge and understanding of the competitive mechanism changes in dealing with a dynamic and uncertain environment. Second, it will contribute to the knowledge concerning resources and capabilities in the new norm logistics business and operations empowering successful logistics services and sustained competitiveness. It will also contribute to predicting future logistics services and operations that help providers and logisticians to react with uncertainty. Further, this Special Issue may also offer new or extend the previous literature, research and theory of logistics, service operations, innovation, and strategic management by offering theoretical and empirical evidence articles.
