

Special Issue

Urban Planning and Construction Management Under Smart City Development

Message from the Guest Editors

Smart cities offer an opportunity for urban development, it is crucial to grab this opportunity wisely by carefully considering how to address the diverse problems of urban planning and construction management during the process of smart city development. This Special Issue will provide an opportunity for researchers worldwide to exchange new ideas. It calls for papers that address critical research questions in this field, use innovative methodologies and data sources, contribute to theoretical debates, or highlight fundamental patterns that deserve more attention. Topics may include, but are not limited to: - Sustainable urban planning for smart cities;

- Urban resilience in smart cities;
- Innovative construction management;
- Smart solutions for the built environment;
- Smart life cycle construction management;
- Low-carbon emission solutions for smart cities;
- Stakeholder management in smart city development;
- Public opinions and engagement in smart city development;
- Public engagement in old community renewal.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
