

Special Issue

Landslides and Artificial Intelligence

Message from the Guest Editor

The purpose of this Special Issue is to create a collection of high-quality papers on the use of artificial intelligence methods in the evaluation and analysis of landslides. In other words, we are open to evaluate any high-quality research involving landslides and artificial intelligence. The topics are listed below:

- Assessment of landslide monitoring data
- Landslide evolution
- Collection and assessment of data collected by citizen
- Landslide susceptibility, hazard and risk assessments
- Quality assessment of landslide data
- Assessment of landslide triggering mechanisms

Guest Editor

Prof. Dr. Candan Gokceoglu

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
