

## Special Issue

# Logistics and Sustainable Supply Chain Management

### Message from the Guest Editors

The aim of the special issue is to provide original and latest contributions, and to review and survey research and development on logistics and sustainable supply chain management, which focuses on the state-of-the-art and potential technologies and providing initiatives for the solutions from academic to enter corresponding practical scenarios. This special issue aims to stimulate and promote the development of novel approaches in enabling a sustainable logistics and supply chain management solution. It intends to invite a series of leading and high-quality papers on ideas, methods, and technologies applied for logistics and sustainable supply chain management. Topics will include, but not limited to, the follows:

---

### Guest Editors

Prof. Dr. Felix T. S. Chan

Dr. Yichen Qin

Dr. Hoi Lam Ma

---

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
