

Special Issue

Sustainable Development and Planning of Supply Chain and Logistics

Message from the Guest Editors

We are pleased to announce a call for papers for a Special Issue on "Sustainable Development and Planning of Supply Chain and Logistics" in the journal *Sustainability*. This Special Issue aims to explore innovative approaches and strategies that promote sustainability within supply chains and logistics, addressing challenges related to resource efficiency, environmental impact, and sustainable growth. **Scope of this Special Issue** This Special Issue invites original research articles, reviews, communications, and concept papers that address, but are not limited to, the following topics:

- Sustainable supply chain management practices;
- Green logistics and transportation;
- Circular economy and closed-loop supply chains;
- Sustainable procurement and sourcing strategies;
- Environmental impact assessment in supply chain management;
- Technological innovations for sustainable logistics;
- Policy frameworks and regulations promoting sustainable supply chains;
- Case studies on sustainable logistics and supply chain management.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
