

Special Issue

Sustainable Waste Management and Recycling for Achieving a Circular Economy: 2nd Edition

Message from the Guest Editors

This Special Issue considers waste management and resource recycling based on the circular economy, covering the role of related policies, advanced technologies, the responsibility of each actor, and SDGs. This Special Issue calls for contributions from various cross-border academic fields, including case studies on global environmental issues, international efforts to address these issues, and policy proposals for achieving a circular economy and carbon neutrality. The aim is to provide international organizations, governments, municipalities, private companies, citizens, and scholars with useful knowledge on how to solve circular economy issues.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
