

Special Issue

Sustainability in Cultural Heritage Conservation

Message from the Guest Editors

This special Issue, encouraged by the 2030 Agenda for Sustainable Development (SDG 11 target 4: *strengthen efforts to protect and safeguard the world's cultural and natural heritage*) and by the twelve principles of Green Chemistry, is designed to shed light on these recent advances and to provide a stage where they can be presented, discussed and hopefully become a source of inspiration for further improvement and dissemination. We welcome contributions presented as original articles, reviews and case studies. Research areas may include, but are not limited to: - New and greener materials and treatments in Heritage Conservation; - New and greener synthetic methods; - New methodologies, processes and/or methodologies aimed at increasing sustainability in Cultural Heritage. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
