

## Special Issue

# Urban Green Areas: Benefits, Design and Management Strategies

### Message from the Guest Editors

The Special Issue invites researchers and academics from various fields to publish their original contributions. Papers may include, but are not limited to, the following themes:

- History, values and perceptions of urban green areas;
- Dynamics of urban green areas under real estate pressure;
- Accessibility to green areas for residents: amenities, inequalities and neglected green urban areas;
- Green urban areas in post-COVID-19 cities;
- Connected green infrastructure in cities;
- Remote sensing of urban green areas;
- Urban heat islands and green areas;
- Role of green areas in developing public spaces;
- Green areas and recreational activities;
- Green areas as places for creativity and socialization in cities;
- Urban green and blue areas, population health and quality of life;
- Metropolisation, dynamics of urban areas, pollution and ecological issues;
- Role of green areas in sustainable urban development;
- Structuring green cities;
- Green architecture for sustainable cities;
- Placing green areas in urban regeneration policies.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
