

## Special Issue

# Advancements in Sustainable Composite Materials: From Innovative Technologies to Eco-Friendly Design

### Message from the Guest Editors

This Special Issue, titled "Advancements in Sustainable Composite Materials: From Innovative Technologies to Eco-Friendly Design", aims to address the growing interest in innovative and high-performance materials, with a focus on polymer composite materials. We invite contributions to this Special Issue which cover various aspects of polymer composite materials, innovative technologies, and manufacturing processes. Authors are encouraged to present research on established manufacturing methods as well as explore new and innovative approaches. Additionally, this Special Issue welcomes the submission of research on coating technologies, fiber treatments, and materials that play a role in creating cost-effective and sustainable composite materials. The aim of this Issue is to contribute to the creation of materials that are environmentally friendly, socially responsible, and economically viable, promoting a more sustainable future across industries.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
