

Special Issue

Agro-Ecosystem Approaches to Sustainable Land Use and Food Security

Message from the Guest Editors

We are pleased to invite contributions to this Special Issue of *Sustainability* on “Agro-Ecosystem Approaches to Sustainable Land Use and Food Security,” that advance understanding and innovation in how agro-ecosystems can be designed, managed, and transformed to support sustainable development. The Special Issue focuses on agro-ecosystem approaches that enhance the multifunctionality of land use systems, including sustainable farming practices, nature-based solutions, integrated landscape management, and diversified production systems. While the existing literature offers a wide range of analyses on sustainable agriculture and land use, it often remains fragmented between ecological, economic, and policy perspectives. This Special Issue contributes by bringing these dimensions together, emphasizing integrated sustainability assessment, practical measurement and monitoring tools, and implementation pathways.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
