

Special Issue

Climate Change-Induced Urban Transitions—Reducing Causes, Mitigating Impacts and Increasing Resilience

Message from the Guest Editors

We intend to collect recent studies in this Special Issue; original research articles and reviews are welcome. Relevant topics include (but are not limited to) the following:

- Urban transitions and sustainable urban development;
- Requirements on climate change;
- The role of nature in urban environments;
- Urban planning and spatial planning issues;
- Urban-rural gradient, intra- and peri-urban particularities;
- Demand-side reduction in greenhouse gases;
- Systems analysis and system simulation;
- Scales of application.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
