Special Issue

Management of Indoor Air Quality in Healthcare Units

Message from the Guest Editors

Indoor air quality in healthcare units has relevant impacts on patient safety and the occupational health and safety of healthcare professionals. Indoor air contamination, caused by outdoor pollutants, indoor activities, building materials, or furniture, is of high concern in healthcare facilities due to the fragility of their occupants' health. Therefore, the need to adequately manage indoor air quality in healthcare facilities is of the utmost importance and cannot be compromised, especially considering the new challenges regarding the prevention of airborne infections caused by the COVID-19 pandemic situation. The purpose of this Special Issue is to encourage the sharing of research studies focused on emergent threats to indoor air quality in healthcare units, as well as the sharing of best management practices regarding these new challenges.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
