

Special Issue

Management of Post-Disaster Housing Reconstruction Programmes

Message from the Guest Editors

This Special issue welcomes articles on the management of Post-disaster housing reconstruction programmes. We seek for contributions on how previous experiences and lessons learned can help in understanding the complexities of post-disaster context and the challenges that affect the management of the permanent housing reconstruction process, cases that unpack the associated social, economic and environmental issues facing affected communities and those that suggest using big data and implementing resilience information into building information models. For further reading, please visit the [Special Issue Website](#).

Guest Editors

Prof. Dr. Irene Lill

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
