# Mapping Agroecology in Europe. New Developments and Applications

### Message from the Guest Editors

Agroecology has gradually developed in the last two decades, but has only recently been more strongly promoted by different movements, organization, institutions, different farmer groups, and also research. Whereas the development of agroecology was very strong from the beginning in Latin America, not enough is known, thus far, for the case of Europe. There are different evolutions in agroecology as a science, movement and practice, but no substantial documentation exists for this for different regions and countries in Europe. We invite to contribute to this Special Issue that provide new insights, developments, applications, and policies related to agroecology in different countries and regions in Europe to get an enlarged and improved view about the development of sustainable agriculture and agroecology in Europe. This includes also the food systems approach in agroecology, as well as historical evolutions in different countries.

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
