

Special Issue

Marine Recreational Fishing: From Sea to Policy

Message from the Guest Editors

This Special Issue aims at addressing some of the key problems related to marine recreational fisheries, contributing to improving scientific information and decision-making about this activity. Topics to be address include sampling surveys; innovative tools to address data collection on MRF; biology and physiology of caught/target fishes; invasive fishes and MRF; catch-and-release-related issues; the effect of climate change on MRF; ecological, biological, and socioeconomic impacts of MRF; stakeholder involvement and integration on MRF data collection and management; existing and innovative management and governance arrangements; and case studies aiming at analyzing the relevance of such fisheries in relation to ecological and socioeconomic sustainability.
